Projects

Azura - since April 2024 - Application based on a vending
machine that stores various goods. The location of the
machines can be seen on the maps that we implemented
through Google maps and when purchasing through the
application, you can get cashbacks

Smart Astana - as a junior I was responsible for basics like setting
UILayouts, had experience with lots of API calls, and also refreshing
the previous code to modern based (from storyboard to just coded
UIKit)

ITStep - various mini Projects such as MathBuster, Diploma work
Language Learning App which implements all of the
components/instruments of Junior Developer
